

Assignment 2

Objective:

The purpose of this assignment is to deepen your understanding of project management tools by researching and creating a blog in groups. This will help you apply theoretical knowledge, develop collaborative skills, and gain practical insights into a specific project management tool.

Assignment Overview:

In groups of three, students will select one project management tool to research. Each group will create a blog covering the features, advantages, disadvantages, and use cases of the chosen tool. The blog should be informative, well-organized, and engaging, including visual elements and group member involvement.

Group members are expected to collaborate effectively and contribute equally to the research and writing process.

Assignment Tasks:

1. **Group Formation:** Form groups of three members
2. **Tool Selection:** Choose one project management tool.
3. **Tool Setup:**
 - Add all group members to the selected tool (e.g., create accounts, share access) to familiarize yourselves with its features and functionalities.
 - Document your experience with the tool and how it supports collaboration within your group.
4. **Research:** Conduct thorough research on the selected tool. Focus on the following aspects:
 - Overview of the tool
 - Key features
 - Advantages and disadvantages
 - Use cases and real-world applications
 - Pricing and availability
5. **Blog Creation:** Write a blog post based on your research. The blog should include:
 - An engaging introduction
 - Detailed sections on each aspect of the tool
 - Visual elements such as screenshots, charts, or diagrams to support your content and illustrate key features

- Document your group's experience with the tool, including how it facilitated your collaboration
 - A conclusion summarizing your findings
6. **Blog Submission:** Publish your blog online (e.g., on a blogging platform like Medium).
7. **Submission Instructions:** Upload a document as a pdf to the submission link which includes the blog link, group name, member names (with registration number) and the tool chosen.

Note: Only one submission from each group is enough.
